Shared Ownership

Shared Ownership

Would you like to get a foot on the property ladder?

If you thought having your own home was out of your reach, Acis has the answer.

Shared ownership is a great way to get your dream home. It makes housing more affordable as it offers you the chance to buy a part share. You might pay 25%, 50% or even a 75% share and then rent the rest until you can afford to pay more.

We have brand new properties available that range from apartments to family homes.

Why not try before you buy?

Our '**Rent to Purchase**' scheme allows you the opportunity to rent a property for up to three years at a subsidised rate before taking the option to buy.

And when you buy after the first year the first year's rent is accepted as a deposit for the house.

It gives you time to decide that the home is right for you and save up. You can pay towards the cost of your new home and save money for a deposit at the same time.
