

Happy 100th home in Sheffield!

Acis Group has completed its 100th home improvement for windows and doors as part of the £24m Investment Programme in Sheffield. The new windows and doors are just the start of a range of improvements on each home in the area, to meet and exceed the Government Decent Homes Standard.

In addition to windows and doors, Acis Group are providing their customers with an added, optional extra of security lighting to the property which has been well received.

Properties on the Woodthorpe and Lower Manor Estate transferred across to Acis Group from Sheffield Homes at the end of March 2007 as part of a voluntary stock transfer.

Acis Group Chief Executive, Valerie Waby explained: "It's fantastic to hear that the substantial investment we have planned in for the homes in Sheffield is already improving the lives of our customers after only a few months. We are really keen to push forward with the Investment Programme and deliver properties that our customers are proud to call home."

Acis Group owns and manages almost 5000 affordable homes within Lincolnshire, Nottinghamshire and South Yorkshire, for rent as well as shared ownership and supported accommodation.
