

Community learning centre open for business

The Park Springs Learning Centre in Gainsborough was officially launched in November. The Learning Centre is a partnership involving Acis, CG Partnership and West Lindsey District Council and is part of the ongoing development project at the Park Springs Community Centre aimed at encouraging the community to utilise the recently refurbished facility.

The Learning Centre, run by Shira Ben, offers a range of courses and activities including a job club and drop-in IT sessions. The IT suite consists of eight PC stations and printing is available.

The suite is accessible to adult learners aged 19 and over and members of the community. Other activities like crafts and digital photography are also offered, as well as educational courses such as maths and English.

For more information about the Learning Centre and the activities on offer phone Shira Ben on 01427 611666 or call into the Learning Centre at Park Springs Community Centre, Riseholme Road, Gainsborough.
