

Trevor Slack

Trevor has been a tenant customer of Acis Group since 2004 and has lived in the local area prior to that time.

He is committed to the aims of the Company and has been taking part in resident involvement activities for a number of years. He is currently chair of the Gainsborough Local Management Board and is also a member of the Aids and Adaptations Service Improvement Group. Trevor was also a member of the partnering group which chose the Gainsborough and Rural gas servicing and planned maintenance contractors.

As a tenant for a number of years, Trevor continues to acquire knowledge and use his skills to inform the company on ways to continually improve its customer focus.

Trevor is hugely enthusiastic and very supportive of the company, and would very much like to represent his fellow tenants on the Board to help improve customer service.
